EMPOWERING RESIDENTS & SECONDARY SCHOOL STUDENTS THROUGH EXPERIENTIAL LEARNING IN LONG-TERM CARE

FREE WEBINAR

KATE DUCAK

Project Officer,
Schlegel-UW Research Institute for
Aging

EMMA BENDER

Program Assistant,
Schlegel-UW Research Institute for
Aging

**WEDNESDAY, JUNE 19, 2019
2:30PM–3:30PM EDT**

Intergenerational partnerships between long-term care (LTC) homes and secondary school students create opportunities to combat ageism, reduce negative perceptions and improve well-being through positive experiences. Using these partnerships to develop experiential learning placements for students can support a recruitment strategy for the future LTC workforce.

BY PARTICIPATING IN THIS WEBINAR YOU WILL:

- Learn the benefits of experiential learning placements in LTC.
- Learn how to use the *Experiential Learning in LTC Guidebook* and online toolkit.
- Leave with strategies and resources to start your experiential learning partnership.

Would you like a copy of the *Experiential Learning in LTC: A Guidebook for Building Partnerships Between Secondary Schools & LTC Homes*? Complete the survey at the end of the webinar and the Ontario CLRI at the RIA will send you one FREE of charge! (Ontario only)
