

# Five steps to intentional impact for your next Remote Facilitation

Think of an remote meeting or conversation you have coming up...

### 1. OUTCOMES

Take a moment and imagine your remote meeting or conversation was a huge success. In that future scenario: What do you see? What happened? What would be different? What becomes possible?

### 2. IMPACT

How do you want people to feel at the end of the meeting or conversation? How do you want to feel?

### 3. SHOW UP

How are you going to show up to that meeting or conversation to create the outcomes or impact that you have identified above?

#### 4. BELIEVE

What will you have to believe to show up that way?

#### 5. ACTION

What do you need to do to prepare? What will you need to do during the meeting?  
What will you need to do after the meeting?
